

# J. G. HANEY, EMINENT DRY FARMING EXPONENT WILL ADDRESS MACLEOD AUDIENCE ON SAT., JAN. 24th—2.30 P.M.

## DREADNOUGHTS OBSOLETE FORM OF BATTLESHIP NEW SHIPS SHOW

London, Jan. 10.—The design of the battleships Nelson and Rodney, now being built by Great Britain under the provisions of the Washington naval treaty, is so revolutionary, according to the Daily Express, that

## TENDERS WANTED

Sealed Tenders are asked for the position of Secretary-Treasurer for the Parkville S.D. No. 2903 for the year 1925. State salary. Address to "X.Y.Z." Times Office on or before Wednesday, January 21st, 1925.

## IN THE MATTER OF THE ESTATE OF FRANK HAHN, LATE OF THE TOWN OF MACLEOD, IN THE PROVINCE OF ALBERTA, FARM- ER, DECEASED

NOTICE is hereby given that all persons having claims upon the estate of the above named Frank Hahn, who died on the Third day of November 1924 are required to file with the undersigned by the Fourteenth day of February 1925, a full statement duly verified of their claims and of any securities held by them, and that after that date the executor will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been filed or which have been brought to their knowledge.

Dated this 3rd day of January A.D. 1925.

John L. Fawcett,  
Solicitor for the Executor,  
MacLeod, Alberta.

## IN THE MATTER OF THE ESTATE OF HANS M. ELLISON, LATE OF THE TOWN OF GRAMUIN, IN THE PROVINCE OF ALBERTA, FARMER DECEASED

NOTICE is hereby given that all persons having claims upon the estate of the above named Hans M. Ellison who died on the 4th day of September 1924 are required to file with the undersigned by the Seventh day of February, 1925, a full statement duly verified of their claims and of any securities held by them, and that after that date the executor will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been filed or which have been brought to their knowledge.

Dated this 13th day of December A.D. 1924.

John L. Fawcett,  
Solicitor for the Executor,  
MacLeod, Alberta.

## CLASSIFIED ADVERTISING

STRAYED—One yearling Heifer branded B reversed L2 on left ribs—anyone knowing whereabouts kindly notify D. McAllister, MacLeod.

LOST—At the Sunday School sleigh drive Friday, Jan. 9th a ladies oval white-gold wrist watch. Finder will be rewarded upon returning same to George D. Armstrong, Methodist Parsonage.

WANTED to purchase for cash or would exchange for part payment one young Spanish Jack for a number of good sized well bred horses of good breeding stock coming in, in 1925. Apply John McIvor, Box 302, MacLeod.

FOR SALE—Piano in first class condition, Claude W. E. Gardiner, 21st Street.

## IT marks the end of the dreadnought era, just as dreadnaughts marked the end of previous types.

The new ships will be entirely different from any others in the world, the newspapers say. They will be floating fortresses and airdromes and will have a radius of action covering thousands of miles. Nine 16-inch guns will be mounted on each of three turrets, all forward. There will be no guns aft, which will constitute a flight deck, and the ship will carry their own flying corps and planes.

Another feature is that there probably will be no funnels, the products of the furnaces being discharged through pipes running alongside the stern.

The distribution of the armor will also be revolutionary. The magazines, like the guns, being all forward, the armor belt extending for three parts of the ship's length will be unnecessary and the weight saved on the sides can be added to the deck protection against high angle fire and aerial bombs. There will also be possible more than one armored deck, thus giving successive means of protection.

## TO BUILD INTO PEACE RIVER

Ottawa, Jan. 9.—Solution of the Peace River transportation problem has been reached. That vast agricultural empire, estimated to be capable of producing 400,000,000 bushels of grain a year, is to be opened up for colonization immediately. The decision was reached at a momentous conference held here today among the heads of the two great railway corporations, the Alberta and British Columbia governments, and members of the Dominion Cabinet.

The results of today's deliberations may be briefly stated as follows: 1.—The Canadian National will build and operate the new branch road which will afford the Peace River Basin its outlet to tide water over the main line of the Government-owned railway.

2.—The presidents of the C.N.R. and C.P.R. will confer upon the disposition of the E.D. & B.C. Railway, whose northern reaches are the mouth of the funnel through which the produce of the Peace River must pour to the Coast.

3.—The Government will bring down a measure providing for the construction of the new line at the session of Parliament which opens next month.

4.—Hon. George P. Graham, Minister of Railways, announces that the expenditure is to be spread over a number of years, which means not only the immediate tapping of the fund, but a programme of extensions to broaden the area served and ultimately to develop the whole Peace River Basin.

5.—Premier Oliver, after pleading for utilization of the P.G.E., took the broadest stand of agreement to a policy which is to the benefit of the whole of Canada. The P.G.E. does not enter into the scheme of Peace River development.

6.—Canada's immigration policy will keep pace with the opening of the new territory with the objective of putting 1,000,000 new settlers in there without delay.

It is apparent from the various statements issued and from the attitude of all concerned that the whole question is settled on the basis of the C.N.R. throwing a branch northward from its main line west of Edmonton so as to tap the existing railway running through part of the Peace River valley.

The disposition of the E.D. & B.C., which is owned by the Alberta Government and has been operated for the past five years by the C.P.R. under an option to purchase, which agreement expires next July. The upper part of the line is vital to the development of the Peace River basin, and the disposition of the connection with Edmonton is doubtful, from the standpoint of the Peace River problem.—Vancouver Morning Sun.

Don't fail to attend the Hockey Club dance on Tuesday, January 20th; it's a pleasant method of supporting MacLeod Sport and the boys need the money to carry on.

The old method won't work these days. Tell her, "If you don't marry me I'll shoot myself," and she'll say, "Fine! That'll save me the trouble."

Modern definitions of home. Wife's: A place to change her clothes. Husband's: A place to hide his liquor. Child: A free lunch counter.

Poise is the quality that keeps a small-town man serene the first time he negotiates Main Street with a walking stick.

**THE HERDSMEN**  
Ye meadows, farewell!  
Ye pastures, still shining!  
The summer's declining,  
And herdsman must go.  
Then away to the mountain!—We're coming against the cuckoo is heard on the plain,  
When streamlets murmur, and earth is gay,  
And blossoms and birds tell of lovely May.  
Ye meadows, farewell!  
Ye pastures, still shining!  
The summer's declining,  
And herdsman must go.  
—Schiller. (Translated Brooks.)

## PINCHER DEFEATED MACLEOD IN HARD FOUGHT BATTLE

In the first hockey game of the season at Pincher the Pincherites defeated Macleod 6 to 3. It was one of the best games seen there in years, featured by wonderful goal keeping by Tex McDonald, checking by Cooper and Mitch, Dobbie and combination by the home team.

Both teams started off with a bang and for 20 minutes went at it hammer and tongs, the period ending with no score. In the second period Jim Dobbie opened the fireworks by scoring on a pass from Alexander after five minutes. From the face-off Cooper zig-zagged from centre to score again making it 2 to 0 for Pincher. Townsend opened the game for Macleod scoring on a pretty solo rush. Pincher was going strong with Alexander, Jim Dobbie and Cooper showing fine combination. They broke through dozens of times only to be blocked by the almost invincible McDonald or to miss the net.

Alexander missed three good chances to score but made up for it in the last period. Macleod was now speeding up. Dowson rushed but McLean saved. Townsend followed and after some pretty stick-handling scored after 16 minutes of play. 8. McDonald went at centre for Dean. McLean blocked McDonald's shot. Alexander waited through the entire Macleod team but missed the net. Mitch Dobbie was playing like a fiend and hook-checked Macleod to death. Cooper scored again from a melee in front of the Macleod net after McDonald had stopped three hot ones in succession. Macleod was rushing strong at the end of the period.

**Final Stanzas**  
In the last period play was faster than ever with Macleod rushing. Dean missed the net, Townsend was blocked by McLean who was stopping shots from all angles. Hamilton came down but was heavily checked by M. Dobbie and fell head over heels. Play was stopped as Hamilton was hurt by the fall, but the game defense man soon got up and continued to play. Alexander and Jim Dobbie came down but McDonald again made a marvelous save. This must have got Alexander's angors, for the old veteran pulled off the sweetest piece of stick-handling of the game. Starting from behind Pincher's net Alexander made a rush. Joe Simpson endeavored to stop him, but Alexander pulled McDonald out of the net scored. Macleod rushed again but Cooper's back-checking was great to see and he robbed Macleod of the puck many times. In another combination of the game Alexander scored on a pass by Dobbie.

Twenty seconds after Dean scored from a melee making Macleod's third goal. Macleod was fighting like demons to even up but couldn't beat the stonewall defense of Marquis, Alexander and McLean. Pincher scored their last goal on the prettiest piece of combination of the night. Alexander, Marquis and J. Dobbie came down three abreast and Marquis scored on a pass from J. Dobbie. This ended the scoring and the period ended with Macleod rushing strong.

**Play Nice Hockey**  
This was Macleod's first game of the season and we're here to say they played a swell game. The home boys are older and better conditioned so Macleod can feel no disgrace over the loss. With more practice and condition they will give any Pass team a mighty hard game. McDonald is a wizard in the nets. Dean is a fine center. Dillingham was the star for Macleod.

At the last minute Dave McLean went into the local net and played a swell game. It was Dave's first time in the nets during two years and he sure made good.

The return game will be played on Tuesday, Jan. 20, and if the game is anything like it was tonight Macleod fans are in for a real hockey treat. Macleod fans came down en masse and boosted their team, under the leadership of Mr. Morrison. It is up to us to show them how Pincher Creek supports its team.

**Summary of Goals:**  
First period—No score.  
Second period—Pincher Creek, J. Dobbie from Marquis, 5 min.; Pincher Creek, Cooper, 5:32; Macleod, Townsend, 16 min.; Pincher Creek, Cooper, 10 min.; Macleod, Dowson.

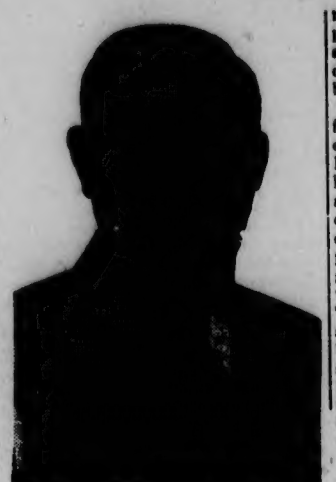

Third period—Pincher Creek, Alexander, 6:51; Pincher Creek, Alexander from Dobbie, 13 min.; Macleod, Dean, 19 min.; Pincher Creek, Marquis from J. Dobbie.

Penalties—Macleod, Townsend, 2 min.; Dowson, 2 min.; Dillingham, 2 min.; Pincher Creek, J. Dobbie 2 min. Referee—Gordon Tucker.

**The lineup:**  
Macleod: Goal, T. McDonald; defense, Dillingham and Hamilton; forwards, Dean, Townsend, Dowson; sub., Graham, Dixon, S. McDonald. Pincher Creek: Goal, McLean; defense, Marquis and Alexander; forwards, Cooper, J. Dobbie, M. Dobbie; sub., Ross, Demers, Lees.—Lethbridge Herald.

It's impossible to satisfy a critic. A critic kicks because novels aren't like real life and in the same breath howls because real life isn't romantic like the novels.

It may reach the point where we'll have that "Look at that busy! Of all the nerve! Wearing paint just like mine!"

J. G. Haney, Dry Farming Expert, Who Will Speak in the Town Hall, Macleod, on Saturday, January 24th, at 2.30 p.m.

Whenever Macleod, "The Jubilee City" goes in for a thing, it does it right. That's why, when the arrangements for the tour of J. G. Haney, dry farming expert, were being made in Southern Alberta, Macleod was one of the first points chosen.

Mr. Haney is manager of the L.H.C. demonstration farms at Grand Forks, North Dakota, Aberdeen, South Dakota and Oak Lake, Manitoba, was born in Western Kansas, and has been fighting drought all his life. He has found a permanent way to beat it on the farms he manages, and he is going to tell the farmers of Macleod and surrounding districts how he did it when he speaks here on Saturday, Jan. 24 at 2.30, in the Town Hall. The Macleod Board of Trade and kindred organizations are behind this community effort to establish greater permanency in our farming methods, and they invite every farmer within driving distance to be present at the big meeting.

Haney's farming religion is diversified farming—wheat, corn, sweet clover, alfalfa, cows, sows and hens. He is not a theoretical crank, but he knows how many problems farmers are up against, and he wants to discuss these with them. The Macleod district is one of the oldest and best parts of Alberta, and boasts a progressive class of farmers who will want to hear what Haney has to say. They will want to know what he advocates to maintain the moisture holding capacity of the soil so that summerfall will produce the results it should. Lethbridge Northern district farmers will also be especially interested in what he has to say about mixed farming.

Farm women and the boys and girls are especially invited to hear Mr. Haney's illustrated lecture. He is a magnetic speaker and makes a big hit everywhere he goes.

R. W. Clarke, Sales Specialist, of Calgary who has just closed one of the most successful Sales of the Season for the Supina Mercantile, Lethbridge is here for this week in charge of closing out the Morrison stock of Gents Furnishings. Mr. Fred Benson is taking half of the Morrison store and is moving his Meat Market just as soon as Morrison can make room for him.

Hockey Club dance Tuesday, January 20th in Silver Grill Hall. Don't miss this opportunity of having a good time while contributing to the needed funds of Macleod Hockey Club.

The modern tendency is to keep the same apartment year after year. It's too much trouble to tear down the radio set.

World War, Clive Ross-Fayne, of a prominent southern family. It is down in the records that Clive had fallen a hero in France. His family had even received the Congressional Medal of Honor.

Here was just the kind of story Jeff was after. Dare he print it? Torn between loyalty to his old friend and the necessity to live, Geoffrey reports to his paper that he has the story but must go to Maryland to get pictures. When he arrives at the Ross-Fayne home he discovers that Eleanor, the girl he had met a year or so before, is Clive's sister.

Geoffrey phones to Hardcastle, his boss, that there is nothing in the story he has given him and tries to steer the paper away from it. Hardcastle, however, sends his star reporter to get the story and when Jeff sees him on the grounds and finds out what Hardcastle intends doing he rushes back to New York. He isn't in time to stop the press but he does hand Hardcastle a beating.

There's a great smash climax when Eleanor comes to tell Jeff what she thinks of him for betraying his friends and Hardcastle brings the police to arrest Farnell for assault. Geoffrey succeeds in frightening off the editor and explaining everything to the girl's satisfaction.

A \$100,000 check, payment of one of Jeff's old steel claims, insures a happy future.

**REAL THRILLS IN NEW AYRES FILM**  
Wild Auto Ride High Spot in "Tomorrow's Love"

When it comes to driving an automobile at a seventy mile an hour clip, Agnes Ayres is a "double" at the wheel.

Long noted as one of "Hollywood's" most skillful drivers, Miss Ayres was put to the acid test during the filming of her latest Paramount starring picture, "Tomorrow's Love," which comes to the Empress Theatre next Friday and Saturday.

Changing places with the pilot of an automobile while it careens dizzily at fifty miles an hour on a crowded highway, then forcing the machine to seventy miles an hour, is a thrill provided by Miss Ayres in the picture. All of the star's unusual skill as a driver was required in the scenes, showing her dodging other automobiles, leaping the span of a slowly rising bridge, missing a railroad train at a crossing and concluding with a sensational smash-up.

This scene furnishes a smash climax for "Tomorrow's Love," which was adapted for the screen by Howard Higgin from the Saturday Evening Post story, "Interlocutory."

Pat O'Malley is leading man in the production. Others in the cast are Raymond Hatton, Ruby Lafayette, Jane Winton, Dale Fuller and little "Spec" O'Donnell.

**NEW PARAMOUNT COMEDY—  
DRAMA OF MATRIMONY**  
"Mr. and Mrs. Robert Stanley—  
and wife."

Signing a hotel register in that manner on one's wedding night ought to be embarrassing enough for a happy bridegroom.

But to turn away from the register only to be confronted by a former "babe" who accuses the groom of having neglected her for a month past, is a situation that requires some

## CURLING

The Burn's Competition is still going strong, with George Stewart holding the top mark having three out of four games. The Fringle and M. Stewart Rinks are tied for second place.

Burn's Cup		
Young	Won	Lost
Fringle	1	3
Dunn	4	2
McKay	3	2
Kirk	3	2
McLeod	2	3
McDonald	3	3
Marks	3	3
Matheson	3	4
Winter	3	2
Stewart	3	2
Kennedy	3	2
McGladery	3	2
Hamilton	2	4
Stewart, Geo.	3	1

**Hudson's Bay Cup**  
The final result of the Hudson's Bay trophy resulted in a victory for Dunn's rink over Young's aggregation after a very close game.

**Graham Cup**  
This competition was commenced on Wednesday with Matheson and Kennedy entering the four. Young and Stewart, and Kirk and M. Stewart will play tonight for the four. This contest will be finished this week. The final competition for the Shaw Cup will be played next week.

The prizes this Season are well worth winning as splendid and valuable presentations have been made by the following donors. The P. Burn's Company, Calgary; The Lethbridge Brewing Company; The Calgary Brewing Company and the Silver Spray Brewing Company.

Yeah, here's the way it goes. Detective: "I've a lurking suspicion that the person to whom this skeleton belonged is dead." Second ditto: "Wait! Don't be too hasty."

World War, Clive Ross-Fayne, of a prominent southern family. It is down in the records that Clive had fallen a hero in France. His family had even received the Congressional Medal of Honor.

Here was just the kind of story Jeff was after. Dare he print it? Torn between loyalty to his old friend and the necessity to live, Geoffrey reports to his paper that he has the story but must go to Maryland to get pictures. When he arrives at the Ross-Fayne home he discovers that Eleanor, the girl he had met a year or so before, is Clive's sister.

Geoffrey phones to Hardcastle, his boss, that there is nothing in the story he has given him and tries to steer the paper away from it. Hardcastle, however, sends his star reporter to get the story and when Jeff sees him on the grounds and finds out what Hardcastle intends doing he rushes back to New York. He isn't in time to stop the press but he does hand Hardcastle a beating.

## ALBERTA CONTROLS TRANS- PORT OF LIQUOR

Calgary, Jan. 8.—By a majority of one, the appellate division of the supreme court of Alberta has handed down a judgment upholding legislation in force under the Alberta Liquor Control Act, the old liquor law, and amendments to the Canada Temperance Act, the effect of which is that liquor cannot be transported through the province, as from British Columbia to Montana, by automobile.

That the amendment to the Canada Temperance Act is still in effect prohibiting private persons from importing or transporting intoxicating liquors into the province.

That the Alberta Liquor Control Act and such portions of the old liquor law still in effect constitute preliminary legislation within the meaning of the Temperance Act of Canada.

**THE EASIEST WAY**  
"What are you going to be when you grow up, Jennie?"  
"An old maid, dear! Why?"  
"Case I don't think I'd like to kiss a man a hundred times and tell him he's handsome every time I go shopping. I'd rather earn money and by things for myself."

**STRONG STUFF**  
A doctor friend tells us he recently received a letter reading like this: "Dear Doctor—Your medicine did me a world of good. Before I started taking the medicine I didn't have strength enough to spank the baby, but now I can whip my husband. God bless you."

The groom shouldn't tell his bride that kind of stories. Why bore her with old stuff?

How Pat O'Malley, playing the role of the groom, extricates himself from this dilemma and satisfactorily explains the why of it all to his wife, Agnes Ayres, is cleverly depicted in "Tomorrow's Love," Agnes Ayres' latest Paramount starring picture, directed by Paul Bern, which comes to the Empress Theatre on Friday and Saturday.

The story was adapted from "Interlocutory," a Saturday Evening Post story by Charles Brackett.

Raymond Hatton, Jane Winton, former "Follies" beauty, and others appear in the supporting cast.

## COMING EVENTS FORESHADOWED

**HOCKEY CLUB DANCE**  
Oh fair Macleod, of Jubilee fame, Your Hockey Team plays well the game—  
They're giving a dance in the old Grill Hall  
On Tuesday next—that's the day of the ball.  
In Jubilee Town let's not be said  
That a dancer gave with a soul so dead  
Who shall not straight off the bat have said:  
"This is our own—this peppy team  
We'll cough four bits to give 'em steam."

**AUCTION SALES**  
Commencing on Saturday, January 24th, R. L. Hackett will inaugurate a series of Saturday afternoon auction sales at which any person having stock, implements or furniture to dispose of may place same in sale. Sales will commence each Saturday at 1 p.m. sharp at Steven's stable, Corner of 23rd St. and 3rd Avenue Macleod. Thirty head of good farm horses will be offered at the sale on Saturday, Jan. 24th—R. L. Hackett, Auctioneer.

**WHIST DRIVE**  
Members of Christ Church, Macleod, will hold a whist drive in the Parish Hall on Thursday, Jan. 22nd, at 8 p.m. Admission 50 cents.

The Macleod and District Board of Trade will hold their annual meeting and election of officers in the Town Hall, on Tuesday, January 20th, at 8 p.m. Mayor McDonald will address the meeting on the Gas situation as affecting the town of Macleod. A good attendance of citizens and residents of the district is expected.

The R. C. Ladies Aid will hold a sale of Home Cooking in Beach's Store on Saturday the 17th day of January 1925 from three to six.

The Ladies Hospital Aid will hold their Annual Meeting in the East Room on Wed. Jan. 21 at 4 p.m. Election of officers.

I. O. O. F. Confort Novelty Dance will be held on Wednesday, February 11th. Keep this date open.

The Macleod Women's Institute with meet in the Odd Fellows Hall Tuesday, Jan. 20th, at 8 p.m.

## SKATING CARNIVAL IN BIG SUCCESS

On Wednesday evening the local skating rink was packed with a happy bunch of skaters, the occasion being the first Fancy Dress carnival of the season. Manager Chugg, of the skating rink, had the ice in splendid shape and the evening entertainment of sports, fancy skating and other less novelties was very much enjoyed. The costumes were of the best, and the judges of the different contests were given no easy task in deciding upon the winners.

A splendid assortment of prizes were given by the merchants in town, and the ladies are to be thanked for their generous assistance in the way of refreshments.

Following is the list of prize winners:—  
Best dressed gent, J. Millard; Best dressed lady, Miss Beaher; Best dressed girl, Irene McParham; Best dressed boy, Edith Pollard; Comic Girl, Alice Raitt; Comic Boy, Elmer McNeil; Comic Man, W. T. Hudson; Men's Race, 1st, Dean, 2nd, Dillingham; Boy's Race, 1st, Adams, 2nd, Grady; Girl's Race, 1st, Miss McLeod, 2nd, Miss Dillingham; Couple Race, 1st, Miss McLeod and McNeil, 2nd, Miss England and Ross; Parade, Baby Race, Dean's team; Barrel Jumping, 1st, Dean; 2nd, Doreen; Fancy Skating, 1st, Doreen; 2nd, Doreen; Keg Race, H. Hamilton.

The barrel jumping was one of the features of the program and was won easily by jumping six barrels, and there is no doubt whatever an additional barrel would have been cleared just as easily.

The music was furnished by the Macleod Band under conductor Edgar, and was greatly appreciated by the big crowd.

The world progresses. Once mud was used to make houses; now it is used as political argument.

Yes, Ethel the best place to carry your money is in the left-hand lower pocket of a good bank.

Some kind friend should lend Spain a book about England and Ireland.

## LOCAL MARKETS

Prices by courtesy of J. J. Burke, manager of the Alberta Pacific Grain Company, Ltd., at Macleod. Quotations are for Wednesday afternoon of this week, and represent prices at Macleod:—

WHEAT:

## HEIRS WANTED

Missing heirs are being sought  
throughout the world. Many people  
are today living in comparative  
poverty who are really rich, but do  
not know it. You may be one of  
them. Send for Index Book, "Missing  
Heirs and Next of Kin," containing  
carefully authenticated lists of miss-  
ing heirs and unclaimed estates which  
have been advertised for, here and  
abroad. The Index of Missing Heirs  
we offer for sale contains thousands  
of names which have appeared in  
American, Canadian, English, Scotch,  
Irish, Welsh, German, French, Bel-  
gian, Swedish, Indian, Colonial,  
and other newspapers, inserted by law-  
yers, executors, administrators. Also  
contains list of English and Irish  
Courts of Chancery and unclaimed  
dividends list of Bank of England.

## THE MACLEOD TIMES AND MACLEOD WEEKLY NEWS

D. J. Grier, Publisher.

A weekly newspaper printed and pub-  
lished at Macleod, Alberta,  
every Thursday.  
(Independent in Politics)

Subscription price (in advance)  
per year ..... \$2.00  
If not paid in advance ..... \$2.50  
Foreign ..... \$3.50

WEEKLY CIRCULATION OF 1,500  
Circulated in a prosperous town of  
1,700 population and in adjacent  
prosperous farming district.

Mechanical Data  
Eight columns to the page. Column  
width, 13 ems pica. Column depth,  
23 inches. Cannot use mats.

### ADVERTISING RATES

### OVERSEAS MAILS SIX YEARS AFTER THE ARMISTICE

There is a passage in the report of  
the Peninsular & Oriental Steam  
Navigation Company, just issued,  
which brings home vividly the back-  
ward condition of some of the present-  
day means of communication. It is  
in the section that relates to the  
Australian mail service, which, it  
says, "has been carried on during the  
past year under some difficulty, owing  
to the loss by enemy action of so  
many of the company's fine ships."

"But next year," the passage con-  
tinues, "there is every prospect of a  
reversion to the full pre-war schedule  
on all lines, as the company hope to  
resume at the beginning of the year  
their fortnightly service to and from  
Australia by means of the 'Cathay' class, now under construction."

That it has taken one of the largest  
and wealthiest shipping companies in  
the world something like six years to  
build up again its Australian mail  
service is a striking commentary on  
the disorganization of shipping which  
the war and post-war conditions  
brought about, for the submarines  
and mines sank the ships, and the  
topsy-turvy nature of the labor  
world since has completed the story  
of delays. This latter factor indeed  
has combined with the high costs of  
construction and operation to serving  
as a brake on many mail services, and  
it is felt even more on the North At-  
lantic than on the Indian Ocean.

There is only one ship now in exist-  
ence which is capable of over 26  
knots for any sustained period, and  
this is the Mauretania.

Unfortunately the arrangements  
under which the postal contracts are  
granted prevent the organization of  
the fastest steamships so as to pro-  
vide a uniformly fast mail service,  
and in consequence mails arrive and  
depart at all sorts of odd times. What  
is even more embarrassing to the  
business man is the way mails posted  
early sometimes go on a slow ship  
and so arrive days after those posted  
later. Firms who have constant com-  
munication overseas are able to  
counteract these irregularities by  
specifying certain ships, but such an  
elaboration of detail should not be  
necessary.

The question which naturally arises  
is whether there is any likelihood of  
improvement. The answer is that it  
is a problem which can only satisfac-  
torily be solved by the provision of  
faster ships. The difference of a knot  
extra would not amount to much on  
the North Atlantic, but on the longer  
routes, such as the Australian, the dif-  
ference would be quite appreciable.

There has often been talk of putting  
very fast vessels on the New York  
route, but the cost of high speed is  
one which shipowners cannot face alone.

It is not always realized how costly  
an extra knot or two becomes after a  
moderately high speed is reached; but  
the price one has to pay can readily  
be seen when it is remembered that  
the Mauretania can do 23 knots with  
45,000 shaft horsepower, whereas to  
do 26½ knots she requires nearly  
twice the horsepower, or something  
like 100,000 on her daily fuel bill. Al-  
though the war years have intervened  
and one must make allowances for the  
slow-down in naval architecture, it is  
nevertheless true that this ship has  
remained the fastest ship in the world  
for twenty years. Up to the present  
the Diesel engine has nothing to offer  
in the way of speed which is likely to  
eclipse the Mauretania's performance.

The alternative is a very substantial  
subsidy. There is one paid to the  
Cunard Company for the Mauretania,  
and there is no doubt that but for this  
the ship could not be run at her speed.  
Subsidies, however, are not altogether  
popular with governments who have  
to keep a watchful eye on expenditure,  
and although Australia, for example,  
has for many years urged faster  
sea communications she has not yet  
come forward with any proposals for  
fostering the bill. It is quite certain

that shipowners cannot by means of  
private enterprise undertake the re-  
sponsibility for, notwithstanding all  
the developments of marine engineer-  
ing, the introduction of the turbine,  
the oil engine, and all the inter-  
mediate refinements of electric propul-  
sion and so on, nothing has yet  
been accomplished to overcome that  
huge disparity when a ship gets over  
about twenty-three knots. So far  
there is nothing on the horizon which  
is likely to solve the difficulty, which  
is equally a naval architect's, as it  
involves the resistance of the hull. It  
is strange, then, that whereas natural  
science has developed the world's  
telegraphic resources both by means  
of mechanical transmission and the  
enormous strides of wireless, its  
every-day letters are still subject to  
delay so that the P. & O. Co., more  
than six years after the armistice, is  
only getting back to its pre-war mail  
arrangements with a pre-war speed,  
and the North Atlantic service is still,  
on the whole, below pre-war stand-  
ards.

### SHALL STEEL SUPPLANT STONE

Experiments by British engineers  
with the construction of small dwell-  
ings, or "bungalows," made of steel  
frames and plates, are claimed to  
have shown that for this kind of a  
building the cost is less than for  
brick or stone. Whether these  
structures will be found as satisfac-  
tory as living places, can, of course,  
only be told after a sufficient number  
have been occupied long enough to  
show that they are comfortable, and  
require no more expense for painting  
and other repairs than the houses  
made out of the rock ribs or clay of  
mother earth. It is possible, by  
standardizing the production of the  
steel material, and simplifying the  
process of its assembling, that a mod-  
erate-sized building can be erected at  
lower cost than that of a stone, brick,  
or even wooden house. Nothing has  
been said of the possibility of con-  
structing tenements or flats wholly  
out of steel, the present proposition  
being devoted to supplying the urgent  
need for additional shelter for British  
workers, to whom low rents are a  
most important consideration.

Another question that will, of  
necessity, arise, is that of durability.  
What effect the changes from cold  
to heat, and other factors, will have  
upon the best painted and protected  
steel, is a matter of experience to  
demonstrate. It is known that prop-  
erty constructed buildings of the right  
kind of stone, or well-made brick, will  
endure for centuries. Anchored firmly  
by its own weight, the old stone  
cottage with sloping roof stands in  
many regions of Britain as it did  
when enterprising voyagers began to  
set sail for the Americas. It will re-  
quire some sound arguments to con-  
vince the conservative British that  
the era of steel is to displace that to  
which they have so long been  
accustomed.

There is still another consideration  
that will doubtless affect the popular-  
ity of the proposed fabricated dwell-  
ings. A stone or brick house, how-  
ever humble, soon after its occupa-  
tion takes on the character of a home.  
Vines clamber up its sides and shade  
its deep windows. Moss adds the  
effect of permanency, and from time  
to time various little touches and  
additions make it a part of the land-  
scape, an ornament to the country  
side. The depictions given of the  
steel house do not indicate a home,  
rather a shelter. As a temporary re-  
lief for the undersupply of housing  
accommodations, the steel building  
may serve a useful purpose. It is  
hardly likely that with the great  
abundance of suitable stone and brick  
clay that exists practically every-  
where in Great Britain, the homes of  
the future will be made out of steel  
by the thousands, like so many Ford  
motorcars.

### MISCHIEVOUS TALK

Mrs. James Elliott tells the United  
Farm Women of Manitoba, conven-  
ing at Brandon, that there is a pos-  
sibility of Western Canada breaking  
away from Eastern Canada, and the  
East ceases to regard the West simply

as a field for exploitation.

That kind of talk is mischievous.

The West will never get anywhere  
by bludgeoning or threatening the  
East.

The way to make this Dominion one  
big progressive harmonious nation is  
not by emphasizing sectional and  
factional differences, but by forget-  
ting those differences under a nation-  
wide policy founded on common na-  
tional ideals and traditions.

A disruption of the Canadian nation  
would herald the disruption of the  
whole Empire. If cities cannot main-  
tain their unity, provinces cannot  
maintain their unity, nations cannot  
maintain their unity. And if a na-  
tion like Canada cannot find in all its  
patches, enough common traditions to  
hold it together, what hope is there  
for a larger organization like the  
Empire?

What Canada needs is not separa-  
tion of East from West, but closer  
organization between East and West.  
And sensible people in the East  
know that just as thoroughly as sen-  
sible people in the West know it.

### THE TRAGEDY OF SCIENCE

Joseph Born, chemist, of Germany,  
invented processes for manufacturing  
many common drugs synthetically, at  
low cost. He came to London to sell  
them.

After six months he found he could  
not get them on the market. So on  
New Year's day he poisoned himself  
with one of his own formulas.

The tragedy of Joseph Born is the  
tragedy of all science.

Science does wonderful work in the  
discovery of new chemical compounds,  
the discovery of new physical laws  
and the discovery of facts that might  
lighten immeasurably the burden of  
the human race.

But science does not know how to  
get them to the public.

Less than 1 per cent of the popula-  
tion has access to and use of this  
knowledge. About 10 per cent has  
some vague information about it. The  
rest of the people are as far removed  
from it as though it existed in an-  
other world.

The big problem of science today is  
not so much to widen its knowledge  
as to merchandise what knowledge it  
already has.

Without the science of publicity,  
physical science has minimum value.

### BORAH AND BOOZE

Senator William E. Borah, capable,  
honest gentleman of Idaho, chides the  
British Government for not putting  
the lid on the booze traffic into the  
United States.

He says that if the Russian Govern-  
ment could be held responsible for the  
mischievous activities of that famed  
letter-writer Zinoviev, the British  
Government can be held responsible  
for the activities of its nationals who  
run rum.

The cases are hardly parallel.

The fundamental cause of rum-  
running into United States is the  
market for liquor in United States.

Dr. Luther Burbank of California  
has done some wonderful things in  
changing the natures of plants. Dr.  
Serge Voronoff of Paris has done some  
very wonderful character changing by  
graft manipulation.

Senator Borah would be perform-  
ing a more practical service for the  
Eighteenth Amendment by appointing  
these two a committee to eradicate  
the thirst from the American people,  
instead of appealing to Great Britain  
to help legislate the American people  
into virtue.

### WHO GETS THE DIFFERENCE?

Yesterday, number one Northern  
wheat sold in Vancouver at \$1.96½.

In Winnipeg it sold at \$1.87.

This spread, constituting a premium  
of between 9 and 10 cents on the  
Western route held practically the  
same down through number 2, 3, 4 and  
5.

For all general purposes this prem-  
ium is encouraging.

But with wheat at \$1.96½ in Van-  
couver and \$1.87 in Winnipeg, who  
gets the difference?

To what party or parties does this

difference of 9 cents go?

Certainly the farmer does not get  
it.

The real point of congratulation  
will come when the premium on the  
Western route can be calculated not  
as between Winnipeg and Vancouver  
figures, but on the exact amount of  
cold hard cash that goes down into  
the farmer's pocket.

And the only way these little  
absorption en route can be eliminated  
is by the establishment of a cash  
market in Vancouver.—Vancouver  
Sun.

### CHRISTABEL AND JUDGMENT DAY

Christabel Pankhurst, who has  
turned from the job of getting votes  
for women to the somewhat more  
difficult job of getting souls for  
Heaven, told a New York audience  
lately that the judgment day is close  
at hand.

Christabel is right.

The judgment day is not only close  
at hand—it is right here.

Of course we haven't heard the last  
trump yet, nor seen the stars fall  
from the skies, nor any of the other  
phenomena that will attend the pro-  
cess of putting mankind into liquida-  
tion.

But, nevertheless, the business of  
judging, rewarding and punishing is  
going on every day, hour and minute.

If it were not so—if pain did not  
inevitably follow sin and pleasure did  
not inevitably follow virtue, the world  
would never have lasted out as long  
as it has.

Judgment day is every day, and  
you can't get away from it.

### HOMEMAKERS' CORNER

#### Apple Porcupine

A porcupine is not an attractive  
little beast, so one hardly expects  
such a toothsome and interesting dish  
as Apple Porcupine proves to be if  
properly made. Cook 1-½ cups sugar  
and 2-½ cups water together 5  
minutes. Core and pare 6 medium  
sized apples and cook them slowly in  
the syrup until tender. Baste and  
turn them around once or twice dur-  
ing the cooking so they will be evenly  
done. Lift the apples carefully out of  
the syrup and drain them, then  
place in a baking dish. Add to the  
syrup a tablespoon of butter and ½  
teaspoon cinnamon and cook till thick.  
Fill the cores and surrounding spaces  
with the apples with the syrup. Then  
stick the apples full of almonds  
blanched, standing up to represent  
the porcupine quills. Place in the  
oven long enough to brown the nuts,  
cool, and serve either with or with-  
out whipped cream.

#### Frozen Pudding

Here is a good frozen pudding for  
dessert. Whip stiff a quart of whip-  
ping cream, add sugar to make as  
sweet as desired, ½ teaspoon vanilla,  
½ cup candied cherries and ½ cup  
English walnut meats (both cherries  
and nuts cut into bits). Place in a  
mould and pack in ice and salt (3  
parts ice to 1 of salt) to freeze 3  
hours. A 2 lb. coffee can can be used  
for a mould and lined with split lady-  
fingers. When ready to serve, turn  
out on a platter, on end, and garnish  
with lemon gelatine that has been  
colored red with fruit juice, chopped  
until it represents rock candy. Place  
on top of the mould a few halves of  
candied cherries.

#### Steamed Fig Pudding

If you want a hot pudding, nothing  
is better (or more wholesome) than  
a steamed fig pudding. Mix a cup of  
suet, chopped fine, with a cup of  
chopped figs, a cup of bread crumbs,  
one of sugar, ½ cup of flour and 2  
teaspoons of baking powder. Add 3  
well beaten eggs, then a cup of sweet  
milk and a teaspoon of vanilla. Steam  
it in 3 one-lb baking powder cans for

1-½ hours, and serve with this  
sauce—

#### Sauce For Fig Pudding

Cream ½ cup butter and add ¼  
cup brown sugar, and cook in a double  
boiler till melted and hot; then add the  
lightly beaten yolks of 2 eggs and  
stir constantly a few moments till the  
mixture thickens slightly and sticks to  
the spoon. Take it off the stove  
and while hot pour on the pudding  
and serve.

#### Lemon Rice Pudding

Here is a pudding that is better if  
served the second day, so it is a good  
one to bake when you want to make  
preparations a day ahead. Separate  
the yolks and whites of 4 eggs and  
beat the yolks till light. Add a cup  
of boiled rice, a pint of milk and the  
grated rind of a lemon. Put in a  
buttered dish and bake as a custard  
in a pan of hot water. Beat the whites  
of the eggs and add slowly a pint of  
sugar and the juice of the lemon.  
Spread this on the pudding, set in a  
pan of cold water and bake slowly  
for a hour.

#### Farina Short Cake

To make a Farina Short Cake, beat  
the yolks of 4 eggs and add a cup of  
sugar. Cream them together and add  
a cup of Farina, ½ teaspoon of bak-  
ing powder and a teaspoon of vanilla.  
Beat the whites of the eggs stiff and  
beat them last folding in. Bake in 2  
not inevitably follow virtue, the world  
would never have lasted out as long  
as it has.

Judgment day is every day, and  
you can't get away from it.

#### Stuffed Figs

Use the pulled figs for stuffing,  
boiling them first in a heavy syrup till  
tender. While still warm, cut a piece  
about an inch long from one side and  
insert a fresh marshmallow inside the  
fig.

#### Almond Cakes

In an old cook book I found, on a  
fly leaf, a list of eleven things, in a  
fine old-fashioned script of faded ink,  
headed "Tried and found good!" The  
first is a recipe for Almond Cakes.

On the margin of the page opposite  
it is pencilled "excellent", so I think  
you may like to have the recipe. Here  
it is:—"To make these, take a pound  
of Almonds, blanched in cold water,  
beat them with Rose water till they  
lose their glistening, put in half a  
pound of fine sugar well sifted, beat  
these and the Almonds together, till  
they be well mixed; then take the  
whites of two eggs, and two spoon-  
fuls of fine flower well dried, and beat  
them together, and pour in your Al-  
monds; then butter the plates you  
frame your cakes in, dust them in  
fine sugar and flower; and when they

#### Backstitching

Backstitching is a strong stitch re-  
sembling machine sewing, made by  
putting the needle through the cloth  
a short stitch back of where it last  
came through, on the top, and out  
again a long stitch ahead on the under  
side. It gives the seam greater  
strength than a running stitch.

#### Ironing Towels

Bath towels, tea towels and dust  
towels need no ironing. Towel towels  
should be folded evenly through the  
middle lengthwise, ironed on both  
sides, and folded again. If the towel  
has a fringe, it should be shaken out  
well, combed with a coarse comb or  
clean brush, and trimmed even with  
the scissors. This should be done be-  
fore ironing, of course. Kitchen  
towels should be ironed the same way  
as towel towels.

#### Backstitching

Backstitching is a strong stitch re-  
sembling machine sewing, made by  
putting the needle through the cloth  
a short stitch back of where it last  
came through, on the top, and out  
again a long stitch ahead on the under  
side. It gives the seam greater  
strength than a running stitch.

#### Ironing Towels

Bath towels, tea towels and dust  
towels need no ironing. Towel towels  
should be folded evenly through the  
middle lengthwise, ironed on both  
sides, and folded again. If the towel  
has a fringe, it should be shaken out  
well, combed with a coarse comb or  
clean brush, and trimmed even with  
the scissors. This should be done be-  
fore ironing, of course. Kitchen  
towels should be ironed the same way  
as towel towels.

## Prize Grain for Seed Fair

It is expected that practically all  
of the seed grain exhibitors showing  
from Alberta at the recent Inter-  
national Show at Chicago will be  
exhibitors at the Annual Provincial  
Seed Fair which takes place in the  
Lancaster Building, Calgary, January  
20 to 23. The annual convention of  
the Alberta Seed Growers will be held  
at the same time, when important  
topics will be discussed by prominent  
agriculturists of the Province.The railways have arranged for  
special rates for delegates attending  
the annual seed convention, on the  
same basis as for delegates to the  
U. F. A. Convention taking place at  
the same time. These special rates  
will be good going January 16 to 22,  
and returning January 27.Public Invests Savings with Gov-  
ernmentThe second largest year in the  
history of the provincial savings  
certificates system was recorded in  
1924, when the people of the province  
invested savings with the provincial  
government to the extent of \$6,308,-  
135.25. This is the largest total ever  
invested in any one year, but owing  
to the fact that five per cent. issues  
were withdrawn by the government  
during the year, the net total remain-  
ing with the government after all  
withdrawals were deducted was \$894,-  
595.56, which is the largest net total  
since the year 1920. The total with-  
drawals during the year aside from  
the withdrawals of the five per cent.  
issues were \$5,413,539.69. The figures  
of total investments quoted show  
that this form of savings investment  
is growing ever more popular.

## Hudson Bay Plans Building Program

In conjunction with the carrying  
out of building plans in other cities  
on the prairies, the Hudson Bay  
Company announces the purchase of  
additional property in Edmonton, and  
the decision to proceed with the erec-  
tion shortly of large additions to their  
present store premises. The company  
erected a large seven-story store in  
Calgary some years ago, but the  
building program instituted at that  
time was interrupted by the war.

## New College Planned

A new Roman Catholic University  
Hall, to cost a quarter of a million  
dollars, and to be affiliated with the Al-  
berta University, is planned for Ed-  
monton, it is announced.

## Increased Shipments

Increased shipments in all com-  
modities for the past year have been  
recorded by both provincial govern-  
ment railways in Alberta. The A. &  
G. W. during the year handled 1130  
cars of commodities shipped out as  
compared with 894 the previous year.Thomas Meighan

western the figures are 1190 cars for  
1924 compared with 1078 cars for the  
previous year. Considerable more  
grain and livestock shipments were  
handled by both lines than in the  
previous year.

## Irrigation Course

Plans are going forward for the  
special course in irrigation to be held  
at the Dominion Experimental Farm  
at Lethbridge for one week commencing  
February 2, under the auspices of  
the Dominion Experimental Farms  
Branch and the Provincial Depart-  
ment of Agriculture. The course will  
be similar to that held last year in  
which such keen interest was taken.  
The course will be opened by Hon.  
Geo. Hoadley on February 2, and  
among those who will give instruction  
and addresses will be S. G. Carlyle,  
Livestock Commissioner, Prof. Carlyle,  
University, Prof. Carlyle,  
Manager E.P. Ranch, J. M. Dykes,  
poultry specialist at the experimental  
farm, Lethbridge, E. E. Eisenhauer,  
M. L. Freng, Chas. Giffen, of the De-  
partment of Agriculture, Don Bark  
of Brooks, O. S. Longman of Ray-  
mond and W. H. Fairfield, Supt. Ex-  
perimental Farm, and others.Work of Provincial Labor Bureau  
During the past year the various  
branches of the Provincial Labor  
Bureau throughout the Province placed  
a total of 33,941 men in positions,  
chiefly on farms, and also placed  
7,789 women. The cost per place-  
ment was 88 cents. The number of  
placements was considerably lower  
than the previous year, owing to the  
fact that a large number of extra  
harvest hands were placed in the field  
during the heavy crop of 1923.Good Attendance at Dairy Course  
More than a score of creamery  
workers from various parts of the  
Province are attending the special  
dairy course at the University which  
opened last Monday and will continue  
until Sat. Jan. 24.Conferences on Railways and Sugar  
BeetsPremier Greenfield, Hon. V. W.  
Smith, Minister of Railways and John  
Callaghan, Deputy Minister of Rail-  
ways are in attendance at the con-  
ference of railway heads and Dominion  
Government officials being held in  
Ottawa to decide upon some policy  
for extension of northern Alberta  
railways. The Premier and Hon. Mr.  
Smith also attended the conference  
held in Winnipeg between officials of  
the Utah-Idaho Sugar Company and  
the C.P.R. to decide upon special rates  
on sugar beets which will permit the  
sugar company to establish a sugar  
plant at Raymond, Alberta.

## Import Fine Sheep

One of the largest herds of pure-  
bred registered Ramboulette sheep  
ever imported into Alberta was un-  
loaded at Raymond on Dec. 24th. The  
flock included 1339 animals for the  
ranch of Ray Knight at Raymond.NEW RAILWAY BRANCHES FOR  
CARDSTON DISTRICTThat the Canadian Pacific Railway  
contemplates the construction of the  
Woodford extension and the Cardston-  
Glenwoodville branch lines this year  
is evidenced in an advertisement that  
will appear today in the Herald. This  
official advertisement from the C. P.  
R. legal department, constitutes the  
first definite announcement from the  
company in connection with these  
lines.

The advertisement announces that

Liabilities of customers under Letters of Credit, as per contra \$ 2,140,300.00  
Share of, and loans to, controlled companies \$ 87,400.53  
Other Assets not included in the foregoing \$ 112,075,115.64NOTE: Included in Call and Short Loans in Canada are Loans secured by grain amounting to  
\$11,414,020.92.NOTE: Bonds of the Canadian Realty Corporation, Ltd., to the extent of \$2,450,000, secured on  
premises leased to the Bank, are in the hands of the Public. These Bonds do not appear in the above  
Statement as the Bank is not directly liable therefor.

W. R. ALAN, President. J. W. HAMILTON, General Manager.

## AUDITORS' REPORT TO THE SHAREHOLDERS

We have compared the above Statement of Liabilities and Assets with the Books and Accounts at Head Office  
and with the certified Branch Statements, and find them correct.We have verified the securities representing the investments of the Bank at the close of the financial year, when  
we checked the cash and verified the securities at several of the principal Branches.We report that we have obtained all the information and explanations which we have required; that all transac-  
tions of the Bank which have come under our notice have, in our opinion, been within the powers of the Bank; and that  
the above Statement of Liabilities and Assets as at 29th November, 1924, is, in our opinion, properly drawn up so  
as to disclose the true condition of the Bank, according to the best of our information and the explanations given  
to us, and as shown by the Books of the Bank.R. S. READ, of GEORGE A. TOUCHÉ & CO., Auditors  
A. B. BRODIE, of PRICE WATERHOUSE & CO., Auditors

Winnipeg, 28th December, 1924.

northwestern branch will tap a pro-  
ductive mixed farming country and  
will unquestionably pave the way for  
a more thickly-populated area and the

Description of Routes

1. From a point at or near Card-  
ston in township three, range twenty-  
five, west of the fourth meridian, in a  
generally northwesterly direction  
across the Blood Indian Reserve,  
thence in a northerly and north-easterly  
direction to a point at or near  
Glenwoodville, in township five,  
range twenty-seven, west of the  
fourth meridian, a distance of about  
thirty miles, all in the province of  
Alberta.2. From a point at or near Wool-  
ford in township three, range twenty-  
four, west of the fourth meridian,  
thence in a generally southerly and  
southeasterly direction, to a point in  
township one, range twenty-three,  
west of the fourth meridian, a dis-  
tance of about 15 miles all in the pro-  
vince of Alberta.Notice is also given that authority  
to increase bonding powers of the  
company will be sought.

Joy to the Settlers

This news from Montreal will bring  
joy to the settlers in the United ir-  
rigation district and those living in the  
fertile McIntyre Lease country,  
southeast of Woodford. It will also be  
welcomed by the stockmen of the  
Mountain View country as the new  
branch will supply them with much-  
needed rail facilities. The Cardstonbuilding up of a chain of flourishing  
owns.It is also looked upon as a strong  
factor in the establishment of the  
new sugar industry in the United ir-  
rigation district. This district pledg-  
ed the raising of more than a thou-  
sand acres of beets providing the  
branch railway was constructed to  
handle their tonnage.

Seen to Lease Country

No community will be more pleased  
with the news than the homesteaders  
in the Del Bonita country. These peo-  
ple have been isolated for years. Like  
the farmers in the Hillspring and  
Glenwood districts, they have been  
obliged to haul their grain for up-  
wards of thirty miles to market en-  
tailing hardship and much actual  
economic loss. With the extension of  
the Woodford line to the Milk River  
these thrifty homestead people will  
have only a haul of from 8 to 12 miles.  
This will prove a real impetus to  
grain growing and dairying and will  
encourage the settlers to retain their  
lands and develop the country. It is  
believed that eventually this line will  
cross the river, traverse the beautiful  
Milk River ridge country and link up  
with the Great Northern Railway.proved a feeding place for many more,  
while the Waterton park and vicinity  
would accommodate up to a thousand,  
which, with the various animals that  
find a home there now would be an  
added attraction to all these Domini-  
on parks. Thus would be preserved  
the buffalo, which in days gone by  
made their home where the towns and  
cities now stand.

## BAKED RICE

Mexican Style

Besides being easily prepared, rice  
dishes are especially nourishing and  
a good substitute for potatoes which,  
unless baked, cannot be prepared in  
a short time.Rice can be cooked in twenty  
minutes and used at any time there-  
after for several days. The following  
recipe for Mexican baked rice makes  
a very substantial "one-dish dinner"

which is suitable for busy days.

Cook one and one-quarter cups of  
rice in boiling salted water for  
thirty minutes. Add only salt and  
cups of tomato pulp, one large green  
pepper cut up fine, one-half cup of  
chopped olives and a dash of paprika.  
Mix together thoroughly and pour in  
a well-buttered casserole with bak-  
ing dish, the potatoes on the surface of  
which will not affect or be affected by  
the acid in the tomatoes. On top  
place the tomato pulp, left after  
straining the juice. Bake thirty-  
minutes in a hot oven. Serve while  
hot.A friend tells us he doesn't go out  
much. He stays at home every night  
and listens to his wife or the radio,  
whichever happens to be broadcasting.The worst thing about the fish for  
office is that election may make it  
settles in the palms.When the government a few years  
ago purchased the several cars of  
buffalo that formed the beginning of  
the big herd at Wainwright, they had  
no idea they would increase so fast.  
The enclosure, which is an immense  
one, was at that time thought to be  
large enough for many years, but the  
Dominion and the province are now  
facing the situation of having to make  
the number of buffalo less so that  
sufficient pasture may be maintained  
for the whole herd.It has been suggested that a few  
thousand be taken north and given  
their liberty in the great northland.  
These in a few years would provide  
food for many who are in that country  
and also for the many who are headed  
that way. The forest range along the  
east slope of the mountains would  
accommodate many head of these  
noble animals, then the great park  
along the National railway wouldYOUR PRINTING

## LOCAL AND PERSONAL NEWS

The Hon. Archie McLean was a visitor in Macleod last week.

Roy McLaughlin, of Brocket, was in town for a few days this week.

Mrs. C. D. T. Becher and her daughter Lillian spend a day in Lethbridge last week.

Mrs. J. E. McNeil, of Stand Off, was the guest of her mother Mrs. E. Whipple during the past two weeks.

The local council of women will hold their annual meeting in the Parish Hall on Tuesday, January 27th, at 4 p.m.

On Thursday night, Jan. 8th the Macleod hockey team trimmed up a bunch of Macleods' married hockeyists—the benedictus will probably make an effort to get even at an early date.

A few days ago J. O. and O. G. Stewart and Thos. Laycock left Macleod to attend the Sweeney Automotive and Electrician School at Kansas City, Missouri.

The I.O.O.F. Whist Drive and dance given on Wednesday evening was well attended and a most enjoyable time was spent by all present. There were 80 tables and a large attendance at the dance. Ladies first prize was won by Mrs. Silas Dickson; Ladies consolation Mrs. W. J. Smith. Gents first, Joseph Lemire; consolation, L. Gilman.

The final result of the Vote on the Federal Church Union Act, of St. Andrew's Presbyterian Church Macleod, was declared at the close of the Poll on Monday evening last when there voted in favour of Union seven members; against Union—seventy-four members. Thus St. Andrew's, Macleod, will continue to be part of the world wide Presbyterian Church.

Early Monday morning the Fire Brigade turned out to a call from the Silver Grill on their arrival they found that a mattress in one of the rooms had caught fire from some unknown cause. The only damage done was the destruction of the bedding, although the outbreak might have proven serious had it not been for the prompt and efficient services of the firemen.

That the farmers of Southern Alberta are in better shape financially and especially in the Macleod district, than previous years is seen by the reports of the school districts, as they hold their annual meetings and prepare for the public meetings that are now being held. The majority of the districts have their debentures all paid off and will report to the meetings a surplus for starting the new year with, practically all the schools are running and are carried on all the year. A few cut their summer holidays short and give January as holidays, on account of the stormy month.

and cold which usually comes during this month.

Mrs. J. Hartley, now of Cranbrook, formerly of Macleod, is the guest of Miss McHattie.

F. Ebbaworth of the Ford Motor Company, Calgary, was in Macleod on Wednesday of this week.

J. McLellan was a business visitor to Calgary this week, he was accompanied by J. Foote, of Standoff.

J. Dorman inspector of brewery warehouses for the Provincial Government was a business visitor to Town this week.

Mrs. R. R. Coffey spent New Years with her mother and father, Mr. and Mrs. James Dickson, at Yak, returning to Macleod last Wednesday.

The many friends of Miss Margaret Shields, and Miss Dorothy Dufour will be glad to hear that they have been accepted after their probation, at the General Hospital, Calgary.

The G.W.V.A. Club have erected a big ice house in the rear of their club premises, which is now packed with ice ready for this summer. The building was put up by J. S. Lambert, contractor.

The Macleod Hockey Club wishes to thank the young ladies who so kindly served the lunch at the ice Carnival; also those who contributed towards the lunch. The net proceeds were \$17.05 which all went to the Hockey Club.

### IRISH DAWN

Somewhere the snipe now taps his tiny drum;  
The moth goes fluttering upward from the heath;  
And where no lightest foot unmarked may come,  
The rabbit, tiptoe, plies his shiny teeth  
On luscious herbage; and with strident hum  
The yellow bees, blustering from flower to flower,  
Scatter from dew-filled cups a sparkling shower.

The meadowsweet shakes out its feathery mass;  
And rumorous winds, that stir the silent eaves,  
Bearing abroad faint perfumes as they pass,  
Thrill with some wondrous tale the fluttering leaves,  
And whisper secretly along the grass  
Where gossamers, for day's triumphal march,  
Hang out from blade to blade their diamond arch.

—James Cousins, in "Etain the Beloved."

One way to get acquainted with a lot of prominent people is to get on the jury.

MACLEOD EASTERN STAR LODGE INSTALLS OFFICERS

Fort Macleod chapter No. 53, Order of Eastern Star, held its annual election of officers in December and the new officers were duly installed January 8 by Mrs. McClenaghan, P.G.W. M. of Lethbridge, assisted by Mrs. W. L. McKennie of Lethbridge and Mrs. W. H. McGregor, of Macleod.

As it is not a year since the chapter was instituted the list of officers remains the same with one or two exceptions.

W. M.—Sr. Gordon.  
W. P.—Bro. Marison.

Associate M.—Sr. Russell.  
Conductress—Sr. Matheson.  
Associate Cond.—Sr. McNay.

Secretary—Bro. McNay.  
Treasurer—Sr. Whipple.

Chaplain—Sr. Ella Taber.  
Organist—Sr. Morris.  
Adah—Sr. Anne Taber.

Ruth—Sr. G. Taber.  
Ester—Sr. Eva Marks.

Martha—Sr. Camies.  
Electa—Sr. Moreash.

Warder—Sr. Young.  
Sentinel—Bro. Kope.

A banquet was served after the installation to which about 50 sat down.

Speeches and toasts brought an enjoyable evening to a close.

Mrs. McClenaghan and Mrs. McKennie were the guests of Mrs. W. A. Gordon.

### CHRIST CHURCH ANNUAL MEETING

The Annual Meeting of the congregation of Christ Church, Macleod, was held in the Parish Hall on Tuesday, Jan. 13th, the Rector, the Rev. W. J. Merrick, presiding. Reports and accounts for the past year were submitted by the Churchwardens, the Women's Auxiliary and the Sunday School, all showing a credit balance. The report of the Women's Auxiliary, presented by the Secretary, Mrs. C. W. E. Gardiner, was especially satisfactory. In addition to the usual grants for parish purposes increased contributions had been sent to diocesan funds for Missions etc., and over \$300.00 had been spent in installing water and plumbing in the Parish Hall and making other additions to equipment.

The Rector re-nominated Mr. W. V. Price as his Warden and Mr. C. W. E. Gardiner was re-elected People's Warden by acclamation. The following were also elected to office:—  
Vestrymen: Messrs. E. F. Brown, E. L. Buckwell, W. Davis Jr., J. H. Davis, A. D. Ferguson, J. T. Jones, C. A. Mercer, G. Pearson, O. J. Wood.  
Lay Delegates to Synod: Messrs. W. V. Price and C. W. E. Gardiner.  
Substitutes: Messrs. C. A. Mercer and A. D. Ferguson.  
Auditors: Messrs. C. A. Mercer and O. J. Wood.

### COUNCIL MEETING MUNICIPAL DISTRICT OF BRIGHT

The adjourned meeting of the Bright Municipal council was held Thursday January 8. Only four members were present, but the business of the council was carried out. After the regular order of business the coming annual election occupied the time of the council and all the necessary regulations received attention. The retiring councillors are Joseph Horner for district 4, P. Tolley for number 5, and Hugh McIntosh for district 6.

It is understood these men will be candidates for office when nomination day comes on February 21.

The election will be one week later. This date is the annual meeting day for the municipalities when the retiring members delivered their addresses to the electors.

W. A. McNair was appointed returning officer, with Harry Rands and Peter Koole as deputies for the election on February 28.

### MACLEOD METHODIST CHURCH

George D. Armstrong, B.A., Minister

"Effectual Prayer" will be the subject at the morning service next Sunday—Commencing on Sunday evening Mr. Armstrong will commence a series of addresses on "The United Church of Canada." These will be as follows:

Sunday Jan. 18th—"The Contribution of Presbyterianism."  
Sunday Jan. 25th—"The Contribution of Congregationalism."

Sunday Feb. 1st—"The Contribution of Methodism."

Commencing on Wednesday evening at the midweek service "The Articles of Doctrine" constituting the Creed of the United Church of Canada will be examined in detail. All who are interested in these services are cordially invited to attend.

### ONTARIO LEADS CHURCH ANTIS

Toronto, Jan. 10.—Reports received up to 11:30 a.m. today by the church union bureau of information indicate that 490 Presbyterian congregations in Canada have voted in favor of entering the United Church of Canada together with the Metho-

dist and Congregational churches, while 98 have decided to stay in the continuing church. Two-thirds of the anti-union churches are in Ontario while a number of Nova Scotia congregations voted non-concurrence last night.

## REACH & COMPANY, LTD.

DRY GOODS, BOOTS & SHOES, CLOTHING, ETC., GROCERIES, EVAPORATED AND FRESH FRUITS

The merchant who does not go over his stock and sacrifice at any old price shelf-worn goods or merchandise that is out of fashion makes a big mistake. Though he loses considerable by doing this he will have the advantage of re-investing the money in new styles and fresh goods, and turning over stock several times. If you don't do this you have got to take the Dutchman's 1%, as the fewer sales mean less turnover of the capital. Fashions are changing all the time, and your customers demand that you keep pace with the styles.

It often seems heartrending to sell goods for less than they cost, and get no thanks for the same. But we don't care—if you buy no thanks are necessary—only the cash. Some of the prices during stock-taking are:

Ladies' Union Suits, opera style for \$1.25. Beautiful silky wool and mercerized feeling—at a sacrifice.

Skating Boots—Boys', Misses' and Women's—your choice \$2.00.

Boys' and Men's Overcoats from \$5.00 up.

Leather-lined Vests at Cost.

One Sheep-lined Coat left, size 40—\$10.50.

Men's Riding Congress at \$6.50.

Misses' Felt-laced Boots for \$2.00 per pair.

Boys' Sweater Coats and Pullovers at Cost.

Youths' and Men's Suits at Cost.

If you want to save money you can do so—but so many of you act independent with the don't-care feeling of millionaires.
